FOREWORD

Alaska Taxable 1983 is dedicated to the memory of Terry L. Earley.

Terry came to Alaska from Michigan in 1979 to become the second State Assessor in the history of the State. He brought with him more than twelve years of experience at every level of ad volorem tax appraisal and assessment administration.

Terry offered seemingly limitless energy to his work, and those of us who worked with him were in constant amazement of his vitality and job dedication. His contributions to the Office were numerous. He increased the level of quality of local assessment studies, lent a broad background of experience to legislative assistance and reorganized the Office to meet the increasing demands placed on it by the Legislature, the Administration and taxing jurisdictions across the State. Terry opened communications between the Office of the State Assessor and all taxing municipalities statewide. Once those communications were opened, involved parties quickly realized that, under Terry's guidance, the Office of the State Assessor could play an important role in assessment education in Alaska. In conjunction with the Alaska Association of Assessing Officers, Terry established a program for regularly scheduled courses and seminars to be offered to Alaska assessment personnel at various stages of their professional development. In doing so, he laid the foundation for a statewide education program which will endure indefinitely.

In September, 1983, Terry tragically met his death in an automobile accident. We offer this issue of Alaska Taxable to his memory as an expression of our respect for his immeasurable contributions to the assessing profession in Alaska.

We will all miss him.

Introduction:

The Alaska Property Tax

CHAPTER I

INTRODUCTION

THE ALASKA PROPERTY TAX

The Power to Tax

The power to tax is an essential power of a state's sovereignty, and it does not depend on a grant of authority from the constitution. However, constitutional provisions regarding taxation serve to define and restrict the exercise of the state's otherwise unlimited power to tax.

The State Constitution places three major restrictions on the levy of property taxes:

1. "No tax shall be levied .... except for a public purpose." (Article IX, Section 6)

2. "Standards for appraisal of all property assessed by the State or its political subdivisions shall be prescribed by law." (Article IX, Section 3)

3. "The State may delegate taxing powers to organized boroughs and cities only." (Article X, Section 2)

Unlike the state, boroughs and cities do not possess any inherent power of taxation; only such power as has been granted them by the State Constitution or the statutes. The power of taxation, therefore, is an extraordinary one, the administration of which is not to be left to implication or inference. For that reason, the Alaska Statutes, together with certain Attorney General's opinions and court decisions, clearly delineate the jurisdiction of municipalities in the assessment of property and in the levy and collection of taxes (applicable statutes may be found in Appendix G.).

Uniform Measures

"Taxes are said to be 'equal and uniform' when no person or class of persons in the taxing district, whether it be state, county, or city, is taxed at a different rate than are other persons in the same thing, and where the objects of taxation are the same, by whomsoever owned or whatsoever they may be." (Weatherly Independent School Dist. V. Hughes, Tex Civ. App. 41 S.W. 2nd 445, 447.

The first step toward establishing uniform assessment procedures in Alaska was taken in 1961-62 when the House Representatives and the Senate, responding to Section 3 of Article IX of the State Constitution (cited above) passed House Concurrent Resolution #14 (HCR14). This resolution in sum required the Local Affairs Agency (now the Division of Municipal & Regional Assistance within the Department of Community & Regional Affairs) to prepare a study of assessment problems and procedures in Alaska, a manual for Assessors and a report

recommending any legislation necessary "to assure a uniform, equalized, and realistic assessment of property throughout the state". The resolution further authorized the Agency to inspect the records of equalization, to hire an assessor, and to hold any hearings deemed necessary for the preparation of the study, the manual and the report.

The Local Affairs Agency, together with the Alaska Association of Assessing Officers, originally published the manual in 1963. That manual has been periodically updated with the latest revisions made in 1977.

There have been a number of reports and studies done by the Division of Municipal & Regional Assistance, the most recent of which was "An Examination of Property Tax Exemptions", prepared and distributed for the Second Session of the Eleventh Legislature.

In addition to HCR 14, in 1962 the legislature adopted AS 14.17.140 which required that "...the Department of Community and Regional Affairs, in consultation with the assessor for each district, shall determine the full and true value of the taxable real and personal property in each district".

The full and true value estimate, as prepared pursuant to the above statute, is used as the uniform measure of wealth for many state programs and appears in Table IV.

Definition of Full and True Value

Full and true value, the basis for the full value determinations, may be defined as "...the estimated price which the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer, both conversant with the property and with prevailing general price levels." [Source: (AS 29.53.060(a)]. Full and true value determinations are made by the State Assessor annually in conformance with uniform standards as defined in Attorney General Opinion No. 18, 1962.

The Full Value Determination

Local control is a basic premise in Alaska's local government structure. As a result of that premise, municipalities have a unique amount of flexibility in the area of property tax administration.

There are numerous optional exemptions that may or may not be adopted, as the local government desires. Those optional exemptions include up to $10,000 on residences and a provision for charging a small flat fee in lieu of property taxes on vessels, etc. (see Appendix G)

In addition to the optional exemptions, municipalities reassess based on several different time frames. Those time frames range from a reassessment every year to reassessment every four or five years.

Even though local systems vary widely, there existed a need for a common unit with which to measure local values uniformly. The Full Value Determination prepared by the State Assessor, Division of Municipal & Regional Assistance, became that measure.

Through the use of sales studies, as described in chapter two, and with the assistance of the local assessors, the State Assessor is able to adjust locally generated values to compensate for the optional exemptions and for the varying reassessment cycles.

Program Uses

The major programs using the full and true value estimate are:

1. State Revenue Sharing - the formula used to compute a municipality's State Revenue Sharing entitlement is based on relative wealth (full value determination) and local effort (locally generated revenues).

2. The Public School Foundation's funding formula uses full value determination as one of its components.

3. The local match portion of Cultural Facilities Grants is based partially on the full value determination.

4. Some grants for Senior Citizen programs are based on the full value determination.

5. The ability to bond for local programs is affected by full value determination.

Tax Limitation

There are four statutory tax limitations in Alaska. They apply to varying degrees and under various circumstances as explained below. In each case the limitation applies only to expenditures for the operating costs of local government. There is no limit on taxation to pay bonded indebtedness.

1. Second Class Cities may not levy taxes which exceed one half of one percent (.5%) of the assessed value of property within the municipality in any one year.

2. Any other type of municipality may not levy taxes which exceed three percent (3%) of the assessed value of property within the municipality in any one year.

*3. No municipality, or combination of municipalities occupying the same geographic area, may levy taxes exceeding $1500 per resident in any one year.

*4. No municipality, or combination of municipalities occupying the same geographic area, may levy taxes which exceed the product of 225 (225%) percent of the average per capita full and true value of property in the state multiplied by the number of residents of the taxing municipality.

*Effectively, the limitation described under 4. above renders the limitation under 3. pointless. In every instance, potential revenues obtained through the use of limitation 4. would exceed those obtained by use of limitation 3.

The organized borough concept of areawide local government, rather than the traditional county form of government was adopted for Alaska primarily because vast amounts of its 586,400 square mile area were virtually uninhabited. With the development of those areas and the ensuing need for community services, the borough concept provided a mechanism for annexation or incorporation, as necessary, of the unorganized borough.

Organized boroughs, and home rule and general law cities which are situated outside the corporate limits of boroughs, have general municipal responsibilities and powers including areawide education, property assessment and collection of taxes, and planning and zoning; cities of the second class have limited taxing powers with no educational responsibility. In the unorganized borough, education is provided totally from state funds with no local effort required.

ASSESSMENT STATISTICS AND RATIO STUDIES

- LOCAL ASSESSMENT POLICY
- SALES-ASSESSMENT RATIOS
- FULL VALUE DETERMINATIONS

CHAPTER III

ASSESSMENT STATISTICS

AND RATIO STUDIES

The local assessor has a legal, professional and ethical responsibility to value uniformly all property within his/her jurisdiction. In addition, it is his/her duty to insure that all values on the assessment roll represent "full and true value" pursuant to AS 29.53.060.

Assessment ratio studies may be used as a measure of uniformity and a tool with which to analyze values both within and among jurisdictions.

There are two major types of assessment ratio studies that can be conducted. They are sales ratio studies and appraisal ratio studies. The sales ratio study is the predominant method currently used in Alaska and, therefore, is the type of ratio study discussed herein.

The sales ratio study compares assessed values to sale prices (transacted during a specific time period and carefully verified).

The results of these comparisons are generally expressed as a ratio in terms of percentage.

The ratios are a result of division. In the process of analysis, the numerator is the assessed value and the denominator is the sale price. This ratio formula is expressed as follows:

$$\frac{\text{ASSESSED VALUE}}{\text{SALE PRICE}} = \text{RATIO (expressed as percentage)}$$

For example, if a residence sells for $100,000 and is assessed at $90,000, the ratio of assessment to sale price expressed as a percentage is 90% (ninety percent).

$$\frac{90{,}000}{100{,}000} = 90\%$$

Preparation of a Ratio Study

1. Assemble Sales Data

   (a) sources of sales data include, but are not limited to, recorders' offices, local realtors, developers, bankers, etc.

   (b) verify sales data by contacting one of the parties involved (grantee, grantor or realtor).

2. Select Samples

   (a) for sales ratio, disbursement of sales should be checked to insure uniform coverage of total areas and to avoid using an overabundance of information from a specific area;
   (b) in all cases, the selection process should be restricted to individual classes of property. (residential, commercial, industrial, etc.)

3. Compile Usable Data

   (a) correlate usable sales information into usable listing;
   (b) divide current assessed values by usable sales data and develop individual ratios;
   (c) sort resulting ratios and remove inconsistencies.

4. Compute Statistical Data

   (a) develop weighted mean;
   (b) develop average absolute deviation;
   (c) develop coefficient of dispersion and other statistical information that can be of assistance at this point; i.e. mean, median, mode, standard deviation, and area multipliers.

Explanation of Statistical Terms Included Herein

Weighted Mean is computed by dividing the total of all of the assessed values by the total of all the sale prices. This is generally considered to be the most accurate indicator of the overall level of assessment on a unit wide basis.

Absolute Average Deviation is the sum of all deviations, regardless of sign, divided by the number of items included in the listing. It indicates the average difference from the mean of all ratios.

Coefficient of Dispersion is developed by dividing the absolute average deviation by the median or mean. The resulting answer can be considered a general yardstick to measure equity among assessments. Considered alone however, it is not a conclusive indicator.

Mean is developed by adding all ratios and dividing by number of items. This is another method of determining an indicator of assessment level on a unit, or areawide, basis.

Median is the middle ratio when a set of numbers is ranked. This is still another method of determining overall ratio for an area or unit.

Mode is the simplest measurement of central tendency and is the item most often reoccurring in a given series. Again a ratio selected in this manner could be used as an overall ratio.

Standard Deviation is the average square root of the average squared deviation from the mean and is a reliable indication of variance.

Area Multipliers are obtained by dividing the ratio by 1.00. This multiplier then can be applied to assessments to bring a unit to the required level. (Caution: multipliers used unit wide or areawide tend to distort uniformity).

Uses of Ratios and Multipliers

The results of sales ratio studies may be applied in several ways depending on the need of the user.

The most common usage comes from state equalization or full value determinations. The normal current procedure for full value determination in Alaska is the use of the weighted mean ratio to determine full value and the reporting of average absolute deviation and the coefficient of dispersion.

Example:

SALE PRICE	ASSESSED VALUE	RATIO	DEVIATION
106,000	100,000	94.34%	5.76
100,000	106,000	106.00%	5.90
109,000	107,000	98.17%	1.93
132,000	125,000	94.70%	5.40
127,000	130,000	102.36%	2.26
122,500	122,500	100.00%	.10
129,000	137,000	106.20%	6.10
141,000	140,000	99.29%	.81
966,500	967,500	100.10%	28.26

$$\frac{\text{TOTAL DEVIATIONS } (28.26)}{\text{ITEMS } (8)} = \text{AVERAGE ABSOLUTE DEVIATION } (3.53\%) \text{ TOTAL}$$

$$\frac{\text{AVERAGE ABSOLUTE DEVIATION } (3.53)}{\text{WEIGHTED AVERAGE } (100.10)} = \text{COEFFICIENT OF DISPERSION } (3.53\%)$$

These ratios could also be used by the local assessor to determine his own level of assessment, internal equity, and to indicate areas that need professional attention.

Limitations of Use

Assessment ratio studies are devices for obtaining indications of the relationship between market values and assessed values, and show general assessment levels within and among areas. Even though these studies can point out areas where inequities exist, they will not, in themselves, correct disparities among individual properties.

A sales ratio study is no more accurate than the information input. Therefore, the utmost care in selecting, screening, and verifying information is essential.

Also, care must be given in order not to overload a study with specific types of property. The optimum arrangement is to segregate by class (commercial, residential, etc.) and type (improved, vacant, water front, etc.). That procedure allows for proper weight to be placed upon each class and type of property.

ASSESSMENT RATIO STUDIES

The following can be used by individual municipalities to help monitor assessment performance. They can be used to indicate the need for general reassessment or which neighborhoods or types of properties are most in need of reassessment.

Note: The following tests are only guidelines and are not intended to take the place of statistical tests. In each case, the sample size should be at least 30.

1. If (A/S)/(A/S) is greater than 1.10
   good indicator that the over assessment errors are more prevalent than under assessment errors.

2. If (A/S)/(A/S) is less than 0.95
   good indicator that the under assessment errors are more prevalent than over assessment errors.

3. If (A/S)/(A/S) is greater than 1.10
   good indicator that assessment regressivity exists.

4. If (A/S)/(A/S) is less than 0.95
   good indicator that assessment progressivity exists.

DEFINITIONS:

$\overline{A/S}$ = mean ratio

$\widetilde{A/S}$ = median ratio

$\overline{A/S}$ = weighted mean ratio (same as weighted average ratio)

regressivity = assessment bias such that high-valued properties are assessed with lower A/S than low-valued property.

progressivity = assessment bias such that high-valued properties are assessed with higher A/S than low-valued properties.

LOCAL ASSESSMENT POLICY

The following information should be used to interpret Table II:

FV = Full and True Value Assessment

EX = Exempt Property

NA = Municipality Does Not Levy Property Taxes

Optional Exemption:	Optional residential exemption up to $10,000 exercised (AS 29.53.025(a))
State Collection:	State collected, annual motor vehicle tax (AS 28.10.431)
5/15	Optional, 5 & 15 dollar fee collected in lieu of property tax (AS 29.53.025(b)(1))

Note: Eight first class cities located outside of boroughs do not levy or collect property taxes. They are: Galena, Hoonah, Hydaburg, Kake, King Cove, Klawock, St. Mary's and Tanana.

Second class cities have no school responsibility but may levy a limited property tax not to exceed five mills. The second class cities of Eagle and Whittier are the only second class cities which levy and collect a property tax.

TABLE III

STATISTICAL EVALUATION TABLE
1983 ASSESSMENT TO SALES RATIO STUDY
REAL PROPERTY ONLY

The following criteria should be used to interpret Table III:

Municipalities: Organized boroughs and cities which levied and collected property taxes in 1983. When a municipality is not shown, sales data available was not sufficient to determine a meaningful ratio.

CLASS:

Improved: All platted parcels of land on which there are significant structures.

Vacant: All platted parcels of land with no significant structures.

WEIGHTED AVERAGE RATIO:

A measure of central tendency. The Weighted Average Ratio is developed by dividing the sum of the assessed values in the sample by the sum of the sales prices in the sample.

ABSOLUTE AVERAGE DEVIATION:

Indicates the average difference of all ratios in the sample from the weighted average ratio. The Absolute Average Deviation is the sum of all deviations, regardless of sign, divided by the number of sales in the sample.

COEFFICIENT OF DISPERSION:

A general measure of conformity and equality. The Coefficient of Dispersion is developed by dividing the absolute average deviation by the weighted average ratio.

NUMBER OF SALES:

The number of valid transactions available for use in the sample.

TABLE VII

REAL PROPERTY STAFF STATISTICS

The following table is for informational purposes only. Total number of parcels are real property parcels as indicated by the municipalities' 1983 certified assessment rolls. The number of appraisers is for real property appraisers and the assessor. The assessment budget and cost per parcel are based on the total budget for the assessing department which includes personal property appraisers (where applicable), assessing clerks, drafting personnel, and employee benefits. Therefore, in most cases, the cost per parcel reflects more than the cost of assessing real property.

As all the first class cities (outside of organized boroughs) and the Bristol Bay Borough are appraised by contract assessors, they were not included in this table.

TABLE XI

PROPERTY AND SALES TAX REVENUE RECAP

The following table presents an estimated recap of property and sales tax revenues received in taxing municipalities throughout the state. Note that the table is based on 1983 assessed values and revenues, and includes only those municipalities actually levying a property tax.

The breakdown of Assessed Values, i.e., Residential, Vacant, and Commercial, are estimates made by this office based on information available. The estimated revenues in these categories were obtained by multiplying each assessed value by each service area mill levy. The $10,000 local option residential exemption was not taken into account, as those numbers were not available.

The estimates for each Borough include the estimates for cities located within that Borough.

Although the valuation of each category was estimated, the total revenue for each municipality should be reasonably accurate.

Relating to the establishment of uniform assessment procedures.

Be it Resolved by the House in Second Legislature, Second Session Assembled, the Senate Concurring:

WHEREAS Section 3, Article IX of the state constitution provides that standards for appraisal of all property assessed by the state or its political subdivisions shall be prescribed by law; and

WHEREAS there is now no provision in the law to assure a uniform, equalized, and realistic assessment of property throughout the state; and

WHEREAS fairness in the collection of taxes and the distribution of state funds to political subdivisions, especially for school purposes, demands uniform, equalized, and realistic assessment on a statewide basis; and

Farm Land Use Assessment

APPENDIX B

FARM USE LAND ASSESSMENT
AS 29.53.035

Effective January 1, 1968, the first Farm and Agricultural Land Deferred Tax Program was enacted (ch 82 SLA 1967). Effective January 1, 1975, the act was substantially amended (sec 1 ch 90 SLA 1974). Effective January 1, 1977, the act was further amended (sec 3 ch 229 SLA 1976). And effective September 10, 1978, the filing deadline was moved to May 15 (sec 1 ch 66 SLA 1978).

The 1974 amendment reduced the yearly gross farm income requirement from 25% to 10%, provided for the averaging of income over a three year period, provided for estimated farm income for the current year, provided for the use of the lessee farm income to qualify the owner for farm use assessment, increased to seven years the deferred tax payment provision, and provided for reimbursement by the state of property tax revenue lost to the municipality through the operation of the act.

The 1976 amendment increased the penalty for conversion of the land to a use incompatible with farm use by requiring the owner to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years as though the land had not been assessed for farm use purposes.

The program was essentially inactive during the first four years of operation since agricultural and rural real estate, for a variety of reasons, simply was not assessed at as high a percentage of value as urban real estate.

The Farm Use Land Assessment Program requires a differential assessment for qualified farm land, with the owner's paying taxes on the land value as a farm, and the State's paying the taxes on the remaining value. If the land is converted to a use incompatible with farming, the owner is liable to pay the deferred tax for the preceding seven years.

Experience over the past several years has vividly demonstrated the difficulty of administering the existing legislation. The omission of a lien provision to make the eligible property liable for the payment to the state of an amount equal to the deferred taxes plus interest is a glaring weakness in the legislation which effectively negates the imposition of the penalty provisions.

ALASKA STATUTES TITLE 29, MUNICIPAL GOVERNMENT
CHAPTER 53, MUNICIPAL ASSESSMENT AND TAXATION:

Sec. 29.53.035. Farm or agricultural lands. (a) Farm use lands included in a farm unit and not dedicated to or being used for nonfarm purposes shall be assessed on the basis of full and true value for farm use, and shall not be assessed as if subdivided or used for some other nonfarm purpose. The assessor shall maintain records valuing the farm use land for both full and true value and farm use value. Should the farm use land be sold, leased, or otherwise disposed of for uses incompatible with farm use or be converted to a use incompatible with farm use by the owner, the owner shall be liable to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years, as though the land had not been assessed for farm use purposes. Payment by the owner shall be made to the state to the extent of its reimbursement for revenue loss under (e) of this section for the preceding seven years. The balance of the payment shall be made to the city or borough. (sec 3 ch 229 SLA 1976)

(b) An owner of farm use land must, to secure the assessment, make application to the assessor before May 15 of each year in which the assessment is desired. The application shall be made upon forms prescribed by the state assessor for the use of the local assessor and shall include information which may reasonably be required to determine the entitlement of the applicant. If the farm use land is leased for farm use purposes, the applicant shall furnish to the assessor a copy of the lease bearing the signatures of both lessee and lessor along with the completed application. The applicant shall furnish the assessor with a copy of the lease covering the period for which the exemption is requested.

(c) In this section "farm use" means the use of land for raising and harvesting crops or for the feeding, breeding and management of livestock or for dairying or another agricultural use for profit or any combination thereof. To be farm use land, the owner or the lessee must be actively engaged in farming the land, and derive at least 10 percent of his yearly gross income from the farm use land. The provisions of this section do not apply to land respecting which the owner has granted, and has outstanding, a lease or option to buy the surface rights. A property owner wishing to file for farm use classification having no history of farm-related income may submit a declaration of intent at the time of filing the application with the assessor setting out the intended use of the land and the anticipated percentage of income. An applicant using this procedure shall file with the assessor before February 1 of the following year a notarized statement of the percentage of gross income attributable to the farm use land. Failure to make the filing required in this subsection forfeits the exemption.

(d) In the event of a crop failure by an act of God the previous year, the owner or lessee may submit an affidavit affirming that 10 percent of his gross income for the past three years was from farming.

(e) Subject to legislative appropriations for the purpose, the state shall reimburse a borough or city, as appropriate, for the real property tax revenues lost to it by the operation of this section. (sec 2 ch 118 SLA 1972; am sec 1 ch 90 SLA 1974; am sec 3 ch 229 SLA 1976; am sec 1 ch 66 SLA 1978)

ALASKA ADMINISTRATIVE CODE TITLE 19,
DEPARTMENT OF COMMUNITY & REGIONAL AFFAIRS
CHAPTER 38, FARM OR AGRICULTURAL LANDS

19 AAC 38.010. FORMS. (a) The Department of Community and Regional Affairs Form 21-410 and Form 21-411 are adopted for use in application for the farm and agricultural land use assessment and tax deferment program.

(b) Application and authorization forms shall be made available by and shall be returned to the clerk or assessor of the municipality in which the land for which the farm use assessment and tax deferment are sought is located. (Eff. 12/31/75, Reg. 56)

19 AAC 38.020. INCOME VERIFICATION. (a) In addition to the application prescribed in 19 AAC 38.010, an applicant must establish before May 15th of the assessment year that the gross income attributed to farm use land is at least 10 percent of the applicant's yearly gross income, by either

(1) providing the clerk or assessor of the municipality proof of income eligibility as shown by income tax returns or other reasonably documented information which is determined by the local assessor to be sufficient proof of eligibility; or

(2) providing the department with copies of signed federal income tax returns submitted to the Internal Revenue Service for the previous year.

(b) Failure to provide documentation as required by this section forfeits the claim for reimbursement for that assessment year. (Eff. 11/24/82, Register 84)

19 AAC 38.030. APPEAL. An Applicant for the farm use assessment and tax deferment who believes that the valuation or classification assigned to the land that is the subject of the application is erroneous may appeal to the board of equalization of the municipality in which the land is located in the manner provided by AS 29.53.130. The municipality shall report the disposition of all such appeals to the state assessor. (Eff. 12/31/75, Reg. 56)

19 AAC 38.040. MAINTENANCE OF RECORDS DUPLICATE COPIES. The municipality in which the land is located shall maintain separate files and records of all applications for the farm use assessment and tax deferment, whether allowed by the municipality or not, including valuation of the property under the full and true value standard of AS 29.53.060. Duplicate copies of all records relating to the application entered in the file shall be forwarded to the state assessor. The municipality shall investigate to determine whether title to land for which the assessment and deferment have been granted has been conveyed or alienated in such a way that the assessment or deferment may be terminated and shall advise the state assessor as to the results of its investigation. (Eff. 12/31/75, Reg. 56)

19 AAC 38.050. CONFIDENTIALITY. Tax records and other documents providing evidence of the applicant's eligibility for the farm use assessment and tax deferment are confidential and shall be used only for the purpose of ascertaining whether the applicant is entitled to the benefits of the assessment and deferment. (Eff. 12/31/75, Reg. 56)

19 AAC 38.060. DEFINITIONS. In this chapter:

(1) "farm use assessment" means the value of the unit or parcel of property for which application for a farm use assessment and tax deferment is made, based upon its highest and best use as farm or agricultural land;

(2) "yearly gross income" means the income of the applicant for the year preceding the tax year for which the application is filed and means the adjusted gross income of the applicant as defined in Section 62 of the Internal Revenue Code (26 U.S.C. 62). (Eff. 12/31/75. Reg. 56)

APPENDIX C-1

SENIOR CITIZEN HOMEOWNER EXEMPTION
AS 29.53.020(e)-(i)

Effective January 1, 1973, Alaska's first Senior Citizen Property Tax Exemption Program was enacted (ch 118 SLA 1972). Effective January 1, 1974, the $10,000 gross annual income limitation as a prerequisite to eligibility was deleted (sec 1 ch 60 SLA 1974). Effective January 1, 1975, an extension of the filing date deadline for good cause shown was authorized (sec 1 ch 65 SLA 1975). Effective January 1, 1977, a formula was adopted for determining an assessed value exemption limit each year (sec 1 ch 217 SLA 1976). Effective January 1, 1977, the exemption limit was retroactively deleted (sec 1 ch 97 SLA 1977).

The law provides that the permanent place of abode of a resident 65 years of age or older may be eligible for exemption from property tax levied by a municipality.

State reimbursement is provided to the municipality for revenue lost in operation of the program.

A breakdown of the FY 83 program impact listed by participating municipalities is illustrated in the table on the following page.

Sec. 29.53.020. Required exemptions. (a) The following property is exempt from general taxation: ...

(e) The real property owned and occupied as a permanent place of abode by a resident 65 years of age or over is exempt from taxation of the assessed value of the real property. Only one exemption may be granted with respect to the same property and, if two or more persons are eligible for an exemption with respect to the same property, the parties shall decide between or among themselves which shall receive the benefit of the exemption. No real property may be exempted under this subsection which the assessor determines, after notice and hearing to the parties concerned, has been conveyed to the applicant primarily for the purpose of obtaining the exemption. ALASKA STATUTES TITLE 29, MUNICIPAL GOVERNMENT
CHAPTER 73, MISCELLANEOUS PROVISIONS

Sec. 29.73.060. Property Tax Equivalency Payments. (a) A resident of the state 65 years of age or older who rents a permanent place of abode is eligible for tax equivalency payments from the state through the Department of Community and Regional Affairs.

(b) For purposes of determining payments to eligible persons, the department shall calculate a property tax equivalent percentage for each home rule or general law municipality, which levies a general property tax, at the rate of one percent per mill. The property tax equivalent percentage applied to the annual rent charged to the applicant equals the property tax equivalency payment payable under this section.

(c) To obtain tax equivalency payments the eligible resident must apply to the department for payment for the preceding year by January 15 of each year on forms and in the manner prescribed by the department. Each applicant shall submit with the application rental receipts or, if rental receipts are not available, other evidence satisfactory to the department for determination of the fact of payment of rent and the amount paid.

(d) If two or more persons occupy a residence as tenants, not all of whom are eligible for tax equivalency payments under this section, the assessor shall determine equitable partial payments to be made to the eligible tenants. However, tax equivalency payments to an eligible applicant may not be reduced because the spouse is less than 65 years of age. If all occupants in a residence are eligible for tax equivalency payments under this section, the occupants shall decide between and among themselves which shall receive payment. APPENDIX D

SENIOR CITIZEN SPECIAL ASSESSMENT EXEMPTION
AS 29.63.065

Effective September 2, 1975, the first senior citizen deferred tax program relating to special assessments was enacted (sec 1 cha 114 SLA 1975). Effective June 21, 1976, the act was repealed and reenacted (sec 1 cha 215 SLA 1976). Effective June 2, 1979, the renewal deadline was extended to March 15, and the department became the agency responsible for waiver of the deadline (sec 23 ch 83 SLA 1979).

The law provides for deferred payment of special assessments levied by municipalities for the installation of sewer and/or water systems. Properties owned and occupied by permanent residents of the state, 65 years of age or older, may be eligible.

State reimbursement is provided to the municipality for revenue lost in operation of the program. At the time of reimbursement, the municipal lien is satisfied and a lien in favor of the state is recorded in the amount of the assessment levied upon the property. The lien becomes due and payable upon sale or transfer of the property except to a spouse, widow, widower or minor heir. Qualification must be verified each year in order for the deferment to be retained.

ALASKA STATUTES TITLE 29, MUNICIPAL GOVERNMENT
CHAPTER 63, SPECIAL ASSESSMENT AND SERVICE AREAS
ARTICLE 1, SPECIAL ASSESSMENTS

Sec. 29.63.065. Exemption. (a) The real property owned and occupied by a resident 65 years of age or over, or the spouse, widow, widower, or minor heir of the original applicant, on which is located only his permanent abode which is a single-family residence, is exempt from (1) special sewer assessments levied by a home rule or general law municipality after September 2, 1975 and (2) special water assessments levied by a home rule or general law municipality after September 2, 1975. Only one exemption may be granted with respect to the same property, and, if two or more persons are eligible for an exemption with respect to the same property, the parties shall decide between or among themselves which shall receive the benefit of the exemption. No real property may be exempted under this subsection which the municipality determines, after notice and hearing to the parties concerned, has been conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the municipality is appealable under AS 44.62.560- 44.62.570.

(b) No exemption may be granted under this section except upon written application for the exemption on a form prescribed by the state assessor for use by local assessors and in accordance with the following requirements:

(1) the claimant must file the initial application during the period of time between the date the assessment roll is certified and the time of payment fixed by the assembly or council. Within one year of the date the assessment roll is certified the assembly or council for good cause shown may waive the claimant's failure to make timely initial application for the exemption and authorize the assessor to accept the application as if timely filed.

(2) a claimant receiving the exemption must file with the department by March 15 of each subsequent year a separate application proving eligibility as of January 1 in order to retain the exemption. Within the same year the department for good cause shown may waive the claimant's failure to make timely application and approve the application as if timely filed.

(3) if an application is filed within the required time under this subsection and is approved by the assembly or council, the exemption shall be allowed in accordance with the provisions of this section. If a waiver under this subsection is granted and the application for exemption approved, the amount of any assessment, penalty or interest which the claimant may have already paid on the assessment shall be refunded to him. The municipality may at any time require proof in the form considered necessary of the right and amount of an exemption claimed under this section.

(c) The state shall reimburse a home rule or general law municipality for the sewer and water assessment revenues which it would receive but for the operation of this section. Reimbursement under this subsection is a lien in favor of the state against the property exempted to the extent of the assessment against the property exempted. Upon recordation in the recording office of the district in which the property exempted is located the lien is

prior and superior to other liens against the property except for general taxes or other special assessments and may be enforced by lien foreclosure as provided in AS 34.10.070- 34.10.220. The lien becomes immediately due and payable:

(1) upon sale or other transfer of the property except to a spouse, widow, widower, or minor heir; however, if the property is transferred to a minor heir the lien becomes due and payable on the date the minor heir reaches the age of 25 years; or

(2) when property exempted under (a) (1) or (2) of this section receives more than one sewer connection or more than one water connection; or

(3) when the claimant fails to prove eligibility under (b) (2) of this section.

(d) In this section

(1) "resident" means a person who for 12 consecutive months has maintained his permanent place of abode in the state;

(2) "real property" includes, but is not limited to, mobile homes, whether classified as real or personal property for municipal tax purposes.

(3) "minor heir" means a person who, at the time of transfer of the property, has not attained the age of 19 years or who, if he has not attained the age of 22 years, is a full-time student at an educational institution or a member of the armed forces of the United States. APPENDIX E

SENIOR CITIZEN MOTOR VEHICLE REGISTRATION TAX PAYMENT
AS 28.10.411(d)

The law requiring payment was enacted effective October 15, 1978. (ch 178 SLA 1978)
Administration began on January 1, 1979 by the Division of Motor Vehicles.

"The Department of Community and Regional Affairs shall pay to the borough or city in which a person who is granted an exemption under (c) of this section resides, an amount equal to the tax levied under section 431(b) of this chapter regardless of whether the borough or city is eligible for the tax levied under that section."

* The law provides for exemption from the locally imposed, state collected registration tax on a motor vehicle owned by a Senior Citizen. The Senior Citizen completes an exemption form at the time of registration and is exempt from the tax. That form is then forwarded to the Department of Community and Regional Affairs and the appropriate municipality is reimbursed.

(6) "taxable property" means real and tangible personal property used or committed by contract or other agreement for use within this state primarily in the exploration for, production of, or pipeline transportation of gas or unrefined oil (except for property used solely for the retail distribution of liquefaction of natural gas), or in the operation or maintenance of facilities used in the exploration for, production of, or pipeline transportation of gas or unrefined oil, including machinery, appliances, supplies, equipment, drilling rigs, wells (whether producing or not), gathering lines and transmission lines, pumping stations, compressor stations, power plants, topping plants, processing units, roads, tank farms, tanker terminals, docks and other port facilities, air strips and communication equipment and facilities, maintenance equipment and facilities, and maintenance camps and other related facilities; "taxable property" does not include permanent residences, office buildings requiring substantial local government services, or gas pipeline systems owned and operated by a certificated public utility regulated by the Alaska Public Utilities Commission; (sec 1 ch 1 FSSLA 1973; am sec 27 ch 208 SLA 1975; am sec 8 ch 8 SLA 1977)

STANDARD OF VALUE

Title 29 - Municipal Government,
Department of Community & Regional Affairs

Sec. 29.53.060. Full and true value. (a) The assessor of a municipality shall assess property at its full and true value as of January 1 of the assessment year, except as provided in this section and sections 30, 35 and 160 of this chapter. The full and true value is the estimated price which the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer, both conversant with the property and with prevailing general price levels. (am sec 45 ch 53 SLA 1973; am sec 1 ch 46 SLA 1974)

Title 43 - Oil and Gas Property Taxes,
Department of Revenue

Sec. 43.56.060. Assessment. (a) The department shall assess property for the tax levied under Sec. 10(b) of this chapter and AS 29.53.045 on property used or committed by contract or other agreement for use for the pipeline transportation of gas or unrefined oil or for the production of gas or unrefined oil at its full and true value as of January 1 of the assessment year.

METHOD OF VALUATION

Title 29 - Municipal Government,
Department of Community & Regional Affairs

A borough has discretion to appraise by whatever recognized method of valuation it chooses, so long as there is no fraud or clear adoption of a fundamentally wrong principle of valuation. Hoblit v. Greater Anchorage Area Borough, Sup. Ct. Op. No 636 (File No. 1214), 473 P.2d 630 (1970)

Sec. 29.53.030 Mining Claims. The assessed value of an unimproved, unpatented mining claim which is not producing, and a non-producing patented mining claim upon which the improvements originally required for patent have become useless and valueless through depreciation, removal, or otherwise, is fixed at $200 for each 20 acres or fraction of 20 acres. If the surface ground of a claim has a separate and independent value for nonmining uses, the real and personal property is assessed at its full and true value. (sec 2 ch 118 SLA 1972)

Sec. 29.53.035. Farm or agricultural lands. (a) Farm use lands included in a farm unit and not dedicated to or being used for nonfarm purposes shall be assessed on the basis of full and true value for farm use, and shall not be assessed as if subdivided or used for some other nonfarm purpose. The assessor shall maintain records valuing the farm use land for both full and true value and farm use value. Should the farm use land be sold, leased, or otherwise disposed of for uses incompatible with farm use or be converted to a use incompatible with farm use by the owner, the owner shall be liable to pay an amount equal to the additional tax at the current mill levy together with eight percent interest for the preceding seven years, as though the land had not been assessed for farm use purposes. Payment by the owner shall be made to the state to the extent of its reimbursement for revenue loss under (e) of this section for the preceding seven years. The balance of the payment shall be made to the city or borough. (sec 3 ch 229 SLA 1976)

(b) An owner of farm use land must, to secure the assessment, make application to the assessor before February 1 of each year in which the assessment is desired. The application shall be made upon forms prescribed by the state assessor for the use of the local assessor and shall include information which may reasonably be required to determine the entitlement of the applicant. If the farm use land is leased for farm use purposes, the applicant shall furnish to the assessor a copy of the lease bearing the signatures of both lessee and lessor along with the completed application. The applicant shall furnish the assessor with a copy of the lease covering the period for which the exemption is requested. (am sec 1 ch 66 SLA 1978)

(c) In this section "farm use" means the use of land for raising and harvesting crops or for the feeding, breeding and management of livestock or for dairying or another agricultural use for profit or any combination thereof. To be farm use land, the owner or the lessee must be actively engaged in farming the land, and derive at least 10 percent of his yearly gross income from the farm use land. The provisions of this section do not apply to land respecting which the owner has granted, and has outstanding, a lease or option to buy the surface rights. A property owner wishing to file for farm use classification having no history of farm-related income may submit a declaration of intent at the time of filing the application with the assessor setting out the intended use of the land and the anticipated percentage of income. An applicant using this procedure shall file with the assessor before February 1 of the following year a notarized statement of the percentage of gross income attributable to the farm use land. Failure to make the filing required in this subsection forfeits the exemption.

(d) In the event of a crop failure by an act of God the previous year, the owner or lessee may submit an affidavit affirming that 10 percent of his gross income for the past three years was from farming.

(e) Subject to legislative appropriations for the purpose, the state shall reimburse a borough or city, as appropriate, for the real property tax revenues lost to it by the operation of this section. (sec 2 ch 118 SLA 1972; am sec 1 ch 90 SLA 1974)

Sec. 29.53.040. Mobile homes. Mobile homes, trailers, house trailers, trailer coaches and similar property used or intended to be used for residential, office or commercial purposes and attached to the land or connected to water, gas, electric or sewage facilities are classed as real property for tax purposes except where expressly classified as personal property by ordinance. This section does not apply to house trailers and mobile homes which are unoccupied and held for sale by persons engaged in the business of selling mobile homes. (sec 2 ch 118 SLA 1972)

Sec. 29.53.060. Full and true value. (b) Assessment of business inventories may be based on the average monthly method of assessment rather than the value existing on January 1. The method used to assess business inventories shall be prescribed by the borough assembly. (sec 2 ch 118 SLA 1972)

(c) In the case of cessation of business during the tax year, the assembly may provide for reassessment of business inventories using the average monthly method of assessment for the tax year rather than the value existing on January 1 of the tax year, and for reduction and refund of taxes. In enacting an ordinance authorized by this section, the assembly may prescribe procedures, restrictions, and conditions of assessing or reassessing business inventories and remitting or refunding taxes. (am sec 45 ch 53 SLA 1973; am sec 1 ch 46 SLA 1974)

METHOD OF VALUATION

Title 43 - Oil and Gas Property Taxes,
Department of Revenue

Sec. 43.56.060. Assessment. (b) The department shall assess property for the taxes levied under Sec. 10(a) of this chapter at its full and true value as of January 1 of the assessment year except that in the case of taxable property used or committed by contract or other agreement for the pipeline transportation of gas or unrefined oil or for the production of gas or unrefined oil to be transported by that pipeline, the first assessment date shall be the construction commencement date. If the construction commencement date is used as the assessment date, the tax payable shall be prorated on the basis of the assessment year remaining.

(c) The full and true value of taxable property used or committed by contract or other agreement for use in the exploration for gas or unrefined oil, or in the operation or maintenance of facilities for the exploration for gas is the estimated price which the property would bring in an open market and under the then prevailing market conditions in a sale between a willing seller and a willing buyer both conversant with the property and with prevailing general price levels.

(d) The full and true value of taxable property used or committed by contract or other agreement for the production of gas or unrefined oil or in the operation or maintenance of facilities for the production of gas or unrefined oil is:

1) on the construction commencement date the actual cost incurred or accrued with respect to the property as of the date of assessment;

2) determined on each January 1 thereafter on the basis of replacement cost less depreciation based on the economic life of proven reserves.

(e) The full and true value of taxable property used or committed by contract or other agreement for pipeline transportation of gas or unrefined oil or in the operation or maintenance of facilities for the pipeline transportation of oil or unrefined oil is:

1) on the construction commencement date and until January 1 following the date the pipeline begins to transport gas or unrefined oil, the actual cost incurred or accrued with respect to the property as of the date of assessment.

2) determined on each January 1 thereafter with due regard to the economic value of the property based on the estimated life of the proven reserves of gas or unrefined oil then technically, economically and legally deliverable into the transportation facility; however, if the proven reserves of gas or unrefined oil then technically, economically and legally deliverable indicate an economic life materially shorter than the estimated physical life of the transportation facility, the full and true value is the actual cost reduced by an annual allowance for depreciation on a straight line basis over an economic life based on the actual elapsed life from the commencement of full operation to the date of assessment plus the estimated remaining life of the proven reserves of gas and unrefined oil then technically, economically and legally deliverable into the transportation facility as of the date of the assessment;

3) on the assessment date next following inability to use or construct all or a substantial part of the facility for a period of 90 or more consecutive days because of natural disaster or legal prohibition, or other events beyond the control of a person having ownership or control of the property, adjusted to take into account any diminution in value.

(f) For purposes of this section, "actual cost" and "replacement cost" do not include interest capitalized before or during the period of construction nor the value of intangible drilling expenses. In the case of taxable property under construction, "actual cost" for purposes of this section means the costs incurred or accrued with respect to the property as of the date of assessment.

(g) The department may enter into agreements with a municipality for the cooperative or joint administration of the assessing authority conferred on the department by this section. (sec 1 ch 1 FSSLA 1973)

Title 28 - Motor Vehicles,
Department of Public Safety

Sec. 28.10.431. Annual Motor Vehicle Registration Tax. (a) There is levied a motor vehicle registration tax within each municipality which is elects, by passage of an appropriate ordinance, to come under this section. A municipality shall file a written notice of election with the department and may not rescind the notice for a subsequent fiscal year. The notice must be filed on or before January 1 of the year preceding the year election under this section is to become effective. If a municipality has, before the effective date of this Act, levied a motor vehicle registration or ad valorem tax which has been repealed by a vote of the people at any regular or special municipal election, then the election provided for in this subsection is not effective until the ordinance passed by the local governing body has been approved by the people at the next regularly scheduled general or special municipal election.

(b) The tax is levied upon motor vehicles subject to the license tax under secs. 411 and 421 of this chapter, not including mobile homes, and is based upon the age of the vehicles as determined by model year according to the following schedule:

	Tax According to the Age of Vehicle Since Model Year:

(5) vehicles specified in sec. 421(b)(4) of this chapter	100	80	60	50	40	30	20	10

METHOD OF VALUATION

(6) vehicles specified in sec. 421(b)(6) of this chapter	8	7	6	5	4	3	2	2	(7)
vehicles specified in sec. 421(d)(9) of this chapter	60	50	40	30	20	15	10	5	(8)

(9) vehicles specified in sec. 421(d)(10) of this chapter		40							

(c) The registration tax shall be levied, collected, enforced and otherwise administered in the same manner as provided for the registration fees in this chapter. Only one registration tax may be collected with respect to the same motor vehicle in the year for which the tax is paid.

(d) If a person has paid both the registration fee levied in secs. 411 and 421 of this chapter and the registration tax levied in this section, and the department determines that the payor is entitled to a refund in whole or part of the registration tax, the department shall make the refund to which the person is entitled. No refund may be made unless application for a refund is filed with the department by December 31 of the year following the year for which the refund is claimed.

(e) The department shall refund money collected under this section, less five per cent as collection costs, to a municipality for which the money was collected, as determined by (1) the address of the residence of an individual required to pay the tax, or (2) the situs of the vehicle if the vehicle is not owned by an individual; the tax situs is the location at which the motor vehicle is usually, normally, or regularly kept or used. For the first year in which the tax is levied within a municipality, the department may retain actual costs of collection of the tax within the municipality as determined by the department.

(f) Money received by an organized borough under this section shall be allocated by the borough by ordinance for city, area outside city, and service area purposes within the borough.

(g) Payment of the registration tax is in lieu of all local use taxes and ad valorem taxes on motor vehicles subject to the tax. No municipality which elects to come under the provision of this section may levy use or ad valorem taxes on motor vehicles subject to the registration tax during a fiscal year in which the election is in effect.

Sec. 28.10.650. Definitions. (22) "mobile home" means a trailer in excess of either 28 feet in length or 8 feet in width that is designed, constructed and equipped for use as a dwelling or as a place of business, storage or other off-highway purpose. (sec 6 ch 20 SLA 1977)

(d) Laws exempting certain property from execution under the Code of Civil Procedures (AS 09) do not exempt the property from taxes levied and collected by municipalities. (sec 1 ch 97 SLA 1972)

(e) The real property owned and occupied as a permanent place of abode by a resident 65 years of age or over is exempt from taxation of the assessed value of the real property. Only one exemption may be granted with respect to the same property and, if two or more persons are eligible for an exemption with respect to the same property, the parties shall decide between or among themselves which shall receive the benefit of the exemption. No real property may be exempted under this subsection which the assessor determines, after notice and hearing to the parties concerned, has been conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the assessor is appealable under AS 44.62.560-44.62.570. (am 1 ch 97 SLA 1977)

(f) No exemption may be granted except upon written application for the exemption on a form prescribed by the state assessor for use by local assessors. The claimant must file the application no later than January 15 of the assessment year for which the exemption is sought, but during the same year the governing body of the municipality for good cause shown may waive the claimant's failure to make timely application for the exemption for that year and authorize the assessor to accept the application as if timely filed. The claimant must file a separate application for each assessment year in which the exemption is sought. If an application is filed within the required time and is approved by the assessor, he shall allow an exemption in accordance with the provisions of this section. If a claimant whose failure to file by January 15 of the assessment year has been waived as provided in this subsection and the application for exemption is approved, the amount of tax which the claimant may have already paid for the assessment year with respect to the property exempted shall be refunded to him. The assessor may at any time require proof in the form he considers necessary of the right and amount of an exemption claimed under this section. (am sec 1 ch 65 SLA 1975)

(g) The state shall reimburse a borough or city, as appropriate, for the real property tax revenues lost to it by the operation of (e) of this section. However, reimbursement will be made to a borough or city for revenue lost to it only to the extent that the loss exceeds an exemption which was granted by the borough or city, or which upon proper application by an individual would have been granted by the borough or city, under sec. 25(a) of this chapter. (sec 1 ch 229 SLA 1976)

(h) Except as provided in (g) of this section, nothing in (e)-(i) of this section affects similar exemptions from property taxes granted by municipalities on September 20, 1972 or prevents municipalities from granting similar exemptions by ordinance as provided in Sec. 25 of this chapter. (sec 1 ch 229 SLA 1976)

(i) In (e)-(i) of this section the term "real property' includes but is not limited to mobile homes, whether classified as real or personal property for municipal tax purposes. (sec 2 ch 118 SLA 1972)

(j) Two percent of the assessed value of a structure is exempt from taxation if the structure contains a fire protection system approved under AS 18.70.081, in operation condition, and incorporated as a fixture or part of the structure. The exemption granted by this subsection is limited to:

(1) An amount equal to two percent of the value of a structure based on the assessment for 1983, if the fire protection system is a fixture of the structure on January 1, 1981; or

(2) An amount equal to two percent of the value of the structure based on the assessment as of January 1 of the year immediately following the installation of the fire protection system if the fire protection system becomes a fixture of the structure after January 1, 1983.

REQUIRED EXEMPTIONS

Sec. 29.63.065. Exemption. (a) The real property owned and occupied by a resident 65 years of age or over, or the spouse, widow, widower, or minor heir of the original applicant, on which is located only his permanent abode which is a single-family residence, is exempt from (1) special sewer assessments levied by a home rule or general law municipality after September 2, 1975 and (2) special water assessments levied by a home rule or general law municipality after September 2, 1975. Only one exemption may be granted with respect to the same property, and, if two or more persons are eligible for an exemption with respect to the same property, the parties shall decide between or among themselves which shall receive the benefit of the exemption. No real property may be exempted under this subsection which the municipality determines, after notice and hearing to the parties concerned, has been conveyed to the applicant primarily for the purpose of obtaining the exemption. The determination of the municipality is appealable under AS 44.62.560-44.62.570.

(b) No exemption may be granted under this section except upon written application for the exemption on a form prescribed by the state assessor for use by local assessors and in accordance with the following requirements:

(1) the claimant must file the initial application during the period of time between the date the assessment roll is certified and the time of payment fixed by the assembly or council. Within one year of the date the assessment roll is certified the assembly or council for good cause shown may waive the claimant's failure to make timely initial application for the exemption and authorize the assessor to accept the application as if timely filed.

(2) a claimant receiving the exemption must file with the department by March 15 of each subsequent year a separate application proving eligibility as of January 1 in order to retain the exemption. Within the same year the department for good cause shown may waive the claimant's failure to make timely application and approve the application as if timely filed.

(3) if an application is filed within the required time under this subsection and is approved by the assembly or council, the exemption shall be allowed in accordance with the provisions of this section. If a waiver under this subsection is granted and the application for exemption approved, the amount of any assessment, penalty or interest which the claimant may have already paid on the assessment shall be refunded to him. The municipality may at any time require proof in the form considered necessary of the right and amount of an exemption claimed under this section.

(c) The state shall reimburse a home rule or general law municipality for the sewer and water assessment revenues which it would receive but for the operation of this section. Reimbursement under this subsection is a lien in favor of the state against the property exempted to the

extent of the assessment against the property exempted. Upon recordation in the recording office of the district in which the property exempted is located the lien is prior and superior to other liens against the property except for general taxes or other special assessments and may be enforced by lien foreclosure as provided in AS 34.10.070- 34.10.220. The lien becomes immediately due and payable:

(1) upon sale or other transfer of the property except to a spouse, widow, widower, or minor heir; however, if the property is transferred to a minor heir the lien becomes due and payable on the date the minor heir reaches the age of 25 years; or

(2) when property exempted under (a) (1) or (2) of this section receives more than one sewer connection or more than one water connection; or

(3) when the claimant fails to prove eligibility under (b) (2) of this section.

(d) In this section

(1) "resident" means a person who for 30 consecutive days has maintained his permanent place of abode in the state;

(2) "real property" includes, but is not limited to, mobile homes, whether classified as real or personal property for municipal tax purposes.

(3) "minor heir" means a person who, at the time of transfer of the property, has not attained the age of 19 years or who, if he has not attained the age of 22 years, is a full-time student at an educational institution or a member of the armed forces of the United States.
